

# Breastfeeding Education and Support

WIC supports and promotes breastfeeding as the natural and best way for infants to be nourished. All participants are provided information on the risks of not breastfeeding.

WIC strives to increase the initiation, duration, and exclusivity of breastfeeding among all women enrolled in the Program.

The American Academy of Pediatrics and the World Health Organization support breastfeeding as the preferred source of nourishment for infants exclusively for the first six months of life.

What we offer:

- ♥ Breastfeeding information and literature
- ♥ Breastfeeding Peer Counselor Program for mother-to-mother breastfeeding support
- ♥ Home visits when needed and possible
- ♥ Breast pump loan program
- ♥ Breastfeeding supplies

If you would like more breastfeeding information and support, we would love to enroll you in the WIC Program. Please call our Breastfeeding

Peer counselor at 336-651-7457 or our WIC office at 336-651-7451 for more information.
